### Experience

I have many years of experience as a hostess for several agencies, for example I worked at the fair trade HEIM&HANDWERK at the information counter. I had many different jobs where I offered drinks and food or was responsible for basic services. In addition I worked several years on a regular base for a famous movie company where I was responsible for organizing meetings for high level management. My role included also taking care on visitors, organizing documents and hotels for them and being the main contact between customer, company and hotel.
