### Experience

I am currently studying Industrial Engineering at the Karlsruhe Institute of Technology. In addition to my studies, I spend a lot of time in my free time with sports or friends. During the semester breaks I like to travel around and explore new cities. To finance this, I have already worked on several bigger events as waiter and have taken care of the guests as a host at trade fairs. In addition, through my work behind the counter at nightclubs and on private events, I have already gained some experience as a Barista. I am a reliable person, I do my tasks conscientiously, whether alone or in a team, with my self-confident and my fluent English contributing to this. Furthermore I can speak the Greek language through my origin.
