Spanish - Basic

Clothing measurements Height: 173 m
Clothing size: 40

Experience

Since 2017 I have collected many experiences in service jobs from working at festivals and events. I've been working as a bartender and took over the management of the service part of events. Furthermore I was able to gain experiences in the field of promotion and I have also worked at the clothing checkroom or admission control. Moreover I have already sold season ware independently. Working as a team is easy and fun to me and I am always open to meet new people. But I am also motivated when working on my own. Since the winter semester of 2018 I've been a media and cultural sciences student in Düsseldorf.
