Experience

- worked as a waitress in a local café named "Treibsand" in Bochum, Germany. That café particularly organized a market every friday where I had to sell their wine; worked in an escape room named "Think Square Bochum" as the leading gamemaster. Not only did I take care of the groups, I also helped new colleagues to find their way in that company and developed new riddles and rooms; I was employed for the company "Vitaquell" in supermarkets promoting their food; I've been playing theatre since 2015 and therefore could already gather a lot of experience e.p. stage (presence) or the connection between audience/viewers and actors/actresses
