Clothing size: L

Experience

- Since Nov. 2018, I have been working as a working student in Sales & Promotions at Sovendus GmbH on their new Project SCOUP. My job in sales was to convince potential clients to join the new application as partners. In addition, I have been working on planning and developing the promotion campaign, and training the promotion team. - In late summer 2018, I worked for non-profit organisations as a fundraiser. These were Plan International & UNO. - I have started face to face sales and promotions with 24Agency and did jobs in a variety of events. - then I switched later to Caluma. - My start was online social media promotions at eToro Ltd., in which I was working on the new social trading platform eToro Openbook.
