### Experience

My last working experience was as a hostess for the company ECM GmbH at the Härtereikongress in Cologne. For seven years, I worked as a civil engineer at Bank Caixa Econômica Federal (located in Brazil). There I was involved in construction projects and financing aspects. For two years, I did work at Engserj (also located in Brazil) as a structure engineer. I did study civil engineer at Belo Horizonte State University, Brazil. During my studies time, I spent three years working as a Bank employee at Bank Caixa Econômica Federal, where I did open bank accounts and advised customers, for example. Previously, I did work as a Internship, where I accompanied renovation work.
