Experience

At the moment I study Business Management with the focus on Tourism-, Hotel- and Eventmanagement at the EMBA university (= European Media- and Business-Academy) in Hamburg in the 5th semester. Part of my studies is to take part in real-life projects, for which I worked with many different companies/ hotels. Besides that, I worked at a bakery for five years, as well as at the reception a hostel called Generator for two years. Also I've been working at a hospital for three years I speak English and Spanish fluently and German is my mother tongue.
