Experience

Since I was 16 I started to work as a waitress while I was at school. After I graduated I started to work as an insurancy clerk for 3 years. Therefore I have good skills when it comes to working in an office. Additionally I learned how to properly talk to costumers or buisness partner. Because of my interesst in IT, I started to study computer sience and economics. Therefore I have some basic skills in Programing (HTML, Java, PHP, SQL, Phyton) too. On the other hand I have a deep understanding in economics as well. 3 years ago I had a toefl exam where I got 103 points.
