Experience

I worked at several events, so I was able to gain experience (and also learn some helpful and cool tips) in catering and service. I also have experience in sales/retail and I can proudly say I was able to increase the sales up to 12% (compared to the time before I started working there). I also worked in a hardware and electronics store, or in a hospital as a nurse assistant. Currently, I am at the beginning of my Master Programm in Chemistry. Oh and I forgot to mention that I have a lot of experience in the lab. (I know it's not very relevant but it counts)
