Experience

I am a student at the university of Paderborn which has collected a pair of experience. First ones of it I have already worked as signpost for a supermarket. There I was in contact with all people who have found to me friendly, cooperatively, although I would also remain professionnell. On top of that I have worked for a taste of products. I have, for example, fish, as well as fruit for trying offered. Afterwards I have worked in the production department of a company which bakes cake. The cleanness at the work was no problem for me, hence, I dispose of a certificate of good health which is valid as a proof. The contact with food is no problem for me. All together has collected some experiences which help me for the future work which I do becomes.
